Summary

Dedicated Computer Science student with a solid foundation in full-stack development. Proficient in various programming languages and frameworks, with hands-on experience in web application development and deployment. Strong problem-solving, communication, and teamwork skills. Seeking an internship to leverage my skills in a dynamic environment.

Work Experience

Srilankan Airlines IT Systems (6 mos)

- Experienced in software development and testing, specializing in iCargo integration and QA testing at SriLankan Airlines, ensuring data consistency and system reliability.
- Developed a Flight Information Display System (FIDS) using Angular with role-based access and a secure login system via .NET and AppSec API integration.
- Collaborated on a native iOS application for tracking cabin crew performance, showcasing proficiency in both frontend and backend technologies.

Education

Informatic Institute of technology

- Bachelor of Science (Hons) in Computer Science

Reading

Lyceum International School, Wattala

- Successfully passed G. C. E Advanced Level examination in Science Stream

2021

Projects

- Student Progression Outcome Prediction**
 - A predictive model to forecast student outcomes by analyzing different inputs like student's grade, attendance, participation etc.
 - Technologies: **Python**
- Cricket Hub:**
 - A website dedicated to cricket enthusiasts where users can view latest cricket match updates, player statistics etc.
 - Technologies: **JavaScript (as client-side scripting)**
- Real Estate Website:**
 - Dynamic website for listing real estates, enabling users to browse properties, filter searches & view detailed properties with their information
 - Technologies: **React, NodeJS, MySQL**
- Sports Companion:**
 - A mobile application that serves as a companion for sports fans by providing live scores, news and sport updates
 - Technologies: React Native, SQL Lite

Technical Skills

- Back end:** Node JS | PHP | Java | Python | C++
- Front end:** React JS | JavaScript | HTML | CSS | Bootstrap | Material UI | Angular JS
- Database:** MySQL | SQL Lite | FireBase
- Version Control:** Git
- Tools:** IntelliJ | VS Code | Visual Studio | PyCharm | Figma | Blender | MS Teams | JIRA
-

Soft Skills

- Excellent Problem-Solving Skills Excellent verbal and written communication
- Adaptability
- Team Player
- Attention to detail Time Management Skills
